Raoul Wallenberg Vocational Secondary School and High School
High School
2008–2011

Summary

I aim to practice and strengthen my backend development skills by building real server-side systems, working with databases, and designing robust REST APIs.

Experience

HM EI Zrt. Budapest
Junior Application Tester 2025-Present

- Testing company-developed hardware and software versions, recording and tracking issues in a bug management system.
- Setting up, installing, and configuring sample and test environments.
- Making minor code adjustments and compiling builds under developer guidance.
- Providing improvement suggestions based on test and user feedback, in collaboration with developers.
- Supporting system demonstrations, implementation, and user training.
- Offering continuous user support and communication after deployment.
- Occasionally performing on-site testing and system setup at client locations.

Straumann GmbH, Hungary Department Budapest
Customer Support Specialist 2022–2025
International distributor of dental implants and surgical instruments

- Performed testing-related tasks to verify the functionality of the e-shop and corporate systems.
- Provided customer support for the e-shop (registration, orders, troubleshooting).
- Managed contract administration and other administrative duties. Coordinated with foreign suppliers in English.
- Managed customs clearance, shipping and receiving, warehousing, inventory, goods receipt, and dispatch.
- Utilized systems such as Our Services (ticketing), SAP SD, and SAP CRM. Prepared reports and statistics in Excel using functions like VLOOKUP and data analysis tools.

Protocall 2009 Ltd. Budapest
Customer Service Representative 2016–2022
Clients included Antenna Hungária Zrt. , Senso Media Zrt., MH Auchan Gas Stations Ltd.

- Gained fundamental experience in troubleshooting and problem identification, transferable to software testing.
- Delivered information, resolved technical issues, and managed complaints.
- Carried out tasks related to automated gas stations and information displays.
- Used systems such as Ecosoft and VCC Live.
